

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

3-14

Date of Issuance:

2/12/2015

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Harris Termite Powder

Name and Address of Registrant (include ZIP Code):

Jane Miller
P.F. Harris Manufacturing Company, LLC
c/o Biologic Consulting, Inc. 115 Obtuse Hill Road
Brookfield, CT 06804

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Date:

2/12/2015

Jacqueline Hardy, Product Manager 34
RMBII, Antimicrobials Division (7510P)

EPA Form 8570-6

2. You are required to comply with the data requirements described in the DCI Order identified below:
 - a. Boric Acid GDCI-011103-27255

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI or EDSP Order listed above, you may contact the Team Leader for PM Team 36: http://www.epa.gov/oppad001/contacts_ad.htm.

3. Be aware that proposed data requirements have been identified for Boric Acid in a Work Plan. For more information on these proposed data requirements, you may contact the Team Leader for PM Team 36: http://www.epa.gov/oppad001/contacts_ad.htm.
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 3-14.”
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSF:

Basic CSF dated 09/16/2014

HARRIS TERMITE POWDER

[Optional Marketing Statements:

For Infestation & Prevention

Ready-to-Use

Kills [Wood Destroying Insects] [,] [Mold & Fungi that Cause Wood Rot]

Odorless

Non-Flammable

*Effective against: Termites, Beetles (Wood Destroying), Carpenter Ants
Wood Rot & Mold]*

[Effective for all interior and exterior lumber, plywood, logs, and wood-form composite structural components.

For use on infested wood, as a preventive treatment in existing structures, and for pre-treatment during construction.

The solution continues to penetrate deep into wood and does not break down, giving long lasting protection.]

Active Ingredient:

Disodium Octaborate Tetrahydrate.....98.0%
(Na₂B₈O₁₃.4H₂O)

Other Ingredients:..... 2.0%

Total 100.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN.

(See Directions for Use and Precautionary Statements on Back Panel)

NET WT. 1b. - Makes 1 GAL. Covers 200 sq. ft.

P.F.HARRIS MANUFACTURING COMPANY, LLC
P.O. BOX 1922
Cartersville, GA 30120

EPA Reg. No. 3-14
EPA Est. No. XXXXX-XX-XXX

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals.

CAUTION. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Personal Protective Equipment (PPE): Wear long-sleeved shirt and long pants, waterproof gloves, shoes plus socks, protective eyewear, and a MSHA/NIOSH approved dust/mist mask respirator (in confined spaces) when applying solution.

FIRST AID

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may contact the National Poison Control Center, 1-800-222-1222, day or night, for emergency medical treatment information.

Environmental Hazards: This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Precaution: Avoid contact with plant life. Harris Termite Powder or solution carelessly spilled or applied to cropland or growing plants, including trees and shrubs, may kill or seriously retard plant growth.

Mixing: Fill bucket with about 80% of a gallon of water. While stirring add 1 lb. of Harris Termite Powder then add water to make 1 gal. Stir until dissolved crystal clear, approximately 5 minutes (quicker in warm water). 1 lb. makes 1 gal. Covers 200 sq. ft.

Note: Stores indefinitely in sealed plastic container.

Application: Solution can be applied with paint brush, roller or trigger spray bottle. Garden tank sprayer works best for attics, crawl spaces, decks, fences, logs and new construction. Wood surface should be clean, dry and unsealed before treating. Apply

solution until wood surface is thoroughly wet. Apply second application after 1 to 24 hours. Applications can also be made by drilling approximately 1/4" holes and injecting solution into wood and/or wall voids. Avoid drilling into plumbing and/or spraying electrical installations. Any white residue can be easily removed or equipment cleaned with warm water and a mild soap solution. Wood should be completely dry (at least 48 hours) before applying paint, varnish or a waterproofing seal.

When replacing unsound wood: Treat surrounding area and all sides of new wood with 2 applications before installing.

Pre-treatment during construction: Apply solution to all accessible surfaces of bare wood, plywood and wood-form composite until surface is thoroughly wet. Apply second application after 1 to 24 hours. Apply after roofing and framing are in place and before insulation and dry walls are installed. Protect treated wood from rain.

Note: Correct leaks and moisture exposure that cause infestation. Wood exposed to moisture should be sealed after treatment. Not recommended for portion of wood that is in direct contact with soil. When gluing wood, treat only after glue is dry. It is recommend to perform a small patch test before general application.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. **Storage:** Store in a dry place. Do not store where children or animals may gain access. **Container Management:** Non-refillable container; do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Notice: Neither manufacturer nor seller makes any warranty expressed or implied concerning use of this product other than indicated on label. To the extent consistent with applicable law, Buyer assumes all responsibility for safety and use not in accordance with directions.

Because of varying conditions affecting use and application, complete prevention of decay by fungi, other organisms or infestations cannot be guaranteed. This product may be used to impart a temporary resistance at these places of attack which may aid in the prevention of immediate reinfestation.

Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but merely a supplement, particularly where use of other insecticides may pose an odor problem.
